

## ICTGCSE.NET – your one stop guide to exam success

---

You work in the design department of Pete's Parrot Sanctuary and have been asked to prepare some web pages which show details of some of the parrots available for adoption.

1. Download the following files from

<http://www.ictgcse.net/ICSP.html>

**PPSMEN.TXT**  
**PPSALL.HTM**  
**BLUEGOLDMACAW.GIF**  
**PARROT.JPG**  
**PATAGONIAN.JPG**  
**WILD-PARROT.JPG**  
**HOME.JPG**

2. Using a suitable software package, prepare the following styles for use within all pages on this website:

h1 Sky Blue, sans-serif font (e.g. Arial), largest (e.g. 40 point), bold, centred  
h2 Pale green, serif (e.g. Times New Roman), bold, italic, smaller (e.g. 18 point), left aligned  
p White, sans-serif (e.g. Arial), smaller (e.g. 12 point), justified  
table, td Dark blue, white collapsed borders 2px thick

Save the stylesheet and attach it to each web page as you create it.

3. Print a copy of the stylesheet that is to be attached to each page as html source code. Make sure that your name is on this printout.

4. Using a suitable software package, create a new homepage **PPSHOME.HTM** This page will have a heading at the top, menu options on the left and a text/graphics area on the right. It should look like this:

5. Enter the heading **PETE'S PARROT SANCTUARY** as style h1.
6. Place the contents of **PPSMEN.TXT** down the left side of the page to create the menu options in style h2.
7. Create a hyperlink for the item **All About Parrots** to point to the file **PPSALL.HTM** which should open in a new window called EXTERNAL. Note that the web page which you have linked to is not yet complete.
8. In the text/graphics area on the right, create a table which has 3 rows and 3 columns. Your table is going to look like this:

<b>A</b>		
<b>B</b>	<b>C</b>	<b>D</b>
<b>E</b>	<b>F</b>	<b>G</b>

9. Merge the cells across row 1 creating cell A, as shown above.
10. Using the contents of the file **PPSMAIN.TXT**
  - place the text **Pete's Parrot Sanctuary was...What we do** into cell A and format this as style p
  - place the text which starts: **We rescue...** into cell B and format this as style H2
  - place the text **Pete qualified as a vet...** into cell F and format this as style H2

- place the text **Patagonian Conure...** into cell D and format this as style H2
12. Import the image **BLUEGOLDMACAW.GIF** and place it in cell E  
Import the image **PARROT.JPG** and place it in cell C  
Import the image **PATAGONIAN.JPG** and place it in cell G
- Make sure that none of the images are more than 200pixels wide keeping the aspect ratio.  
Centre the images in the cells.
13. Make sure that you have attached the stylesheet to this page and save it as **PPSHOME.HTM**  
Print this page as it is viewed in your browser. Print a copy of the HTML source.
14. Open the file **PPSALL.HTM**  
Replace the text **CLICK HERE** (at the bottom of the page) with the image **HOME.JPG**  
Make this a link (in the same window) to the file **PPSHOME.HTM**
16. Make sure that you have attached the stylesheet to this page and save it as **PPSALL.HTM**  
Apply the styles H1, H2 and H3 to any text on the page.  
Print this page as it is viewed in your browse
